In Synchronized Skating Teams, up to 25% of team members may be exempt from the above citizenship/residency requirement. Alternates are not included for the purpose of calculating percentages.

- 202.6 A skater or synchronized skating team may only represent one club per season in NZIFSA and/or Sub Association competitions and championships. All skaters must compete in at least one New Zealand competition in the preceding 12 months, preferably NZ National Championships, before competing overseas.
- c) Skaters wishing to enter other overseas competitions must first receive written permission from the NZIFSA before submitting any entry. Full details of the competition and grade to which the entry is being made must be given. The NZIFSA shall not give permission where the event is not sanctioned by an ISU Member.
- d) Failure to comply with any part of this rule may result in the skater becoming ineligible.
- e) The process for skaters wishing to compete overseas shall be as follows:
- Email requests sent to the General Secretary
 - The CEO and TC Secretary will check that the skater is eligible in terms of selection criteria, citizenship, TC Registration, grade, age, and tests and is a member in good standing with their home club/NZIFSA.

Competitors must complete either the electronic form on the NZIFSA website or submit a paper copy. Changed PPC sheets must be handed in to the Accreditation desk at the time of registration for the information of the Technical Panel. **Entries will not be accepted without a completed PPC, either hard copy or electronic.**

- met the minimum TES points published in the Championship Announcement in the grade they will skate at the NZ National Championships at a Club or Regional Sub-Association Championship held between 1 July and the announced closing date for entries to the NZ National Championships in that year. Invitational, challenge or other club competitions/championships that occur between the previous NZ National Championships and 1st July the year of competition are not NZ National Championship qualifying competitions.

NOTE: NZ skaters who are residing and/or training overseas during the period of TES qualifying for NZ National Championships must compete at a competition at least equivalent to a Club or Sub-Association Championship and submit the protocol to confirm that they have met the minimum TES points required. Where no equivalent competition is reasonably available, the skater must apply to the Board, by 1 June, to be considered for entry to the NZ National Championships subject to meeting the TES points during monitoring.

Please refer to the current NZIFSA Selection Policy if withdrawing from the New Zealand Ice Figure Skating Championships as there may be requirements to maintain eligibility for selection.

The list of competitors must be published before the draw: for Synchronized Skating events, the names of individual team members must be published at this time.

221.2 **Persons Entitled to File a Protest**
Protests may be lodged only:

- a) By a competitor(s) (team captain in Synchronized Skating) entered for the competition concerned or a Team Leader accredited for the competition concerned;
- b) With the approval of such competitor(s) or Team Leader, by members of the committee organising the competition, or by official representatives of those Associations or Clubs which have entered competitors.

221.3 Protests concerning the participation of a competitor must be lodged verbally with the Event Referee or nominated representative before the competition starts.

221.4 If an immediate decision cannot be reached, the competitor is permitted to start, but the displaying of the result and the distribution of the prizes shall be deferred until a decision has been reached.

221.5 Any other protests must be made to the Event Referee, Technical Controller or Technical Director no more than 48 hours after the result has been published.

221.6 No later protests will be considered.

221.7 The Referee decides upon all protests.

221.8 **Protest Restrictions**

- i) No protests against the evaluations by Judges and the Technical Panel (Technical Controller, Technical Specialists) of skaters' performances are allowed;
- ii) Protests against the result are permitted only in the case of incorrect mathematical calculation or incorrect application of ISU and/or NZIFSA rules resulting in the incorrect number of points being awarded to a skater or team for an element or deducted in the case of a fall. A wrong identification of an element or of a level of difficulty, although it results in a lower or higher score, is a human error and not an incorrect mathematical calculation;
- iii) However, if the Referee learns:
 - a) prior to the beginning of award ceremony or prior to the official announcement of results if there is no award ceremony, that a human error relating to wrong data input by the Data Operator occurred or the ISU and/or NZIFSA Rules were incorrectly applied to the crediting of elements or the deduction of falls performed by a competitor, the Referee or Technical Controller may correct the error provided that the Referee or Technical Controller, both Technical Specialists and the Data Operator (in the case of an input error) all agree that there was an error;
 - b) within 48 hours after the award ceremony or results being published (whichever occurs later) that an incorrect mathematical calculation or incorrect application of the ISU or NZIFSA rules occurred, the Referee or Technical Controller may correct the calculation even without protest provided that the Referee or Technical Controller, both Technical Specialists and the Data Operator (in the case of an input error) all agree that there was an incorrect calculation or error in the way points were credited in the case of an element or deducted in the case of a fall. If such correction requires corrections of the final placements of the competitors, the corresponding medals and/or awards shall be changed accordingly.

221.9 **Protests Regarding Composition of Officials Panels**

Protests concerning the composition of the Judges and Technical Panels for National Championships must be lodged with the Officials Director or nominated representative before the first starting order draw for the event.

222 **CONDUCT OF COMPETITORS AND COACHES TOWARDS OFFICIALS**

222.1 Competitors and coaches must obey reasonable instructions relating to the competition given by any competition official.

- 222.2 A competitor or coach who, either directly or through a third party, openly expresses themselves in an improper manner regarding the officials or their decisions, or regarding the markings of the Judges may be excluded by the Board of the Association for a definite period from Association Championships and International Competitions.
- 222.3 Any official or Judge of an Association championship who learns of improper or irregular conduct or proposals concerning Judges or judging of an event must immediately report the details to the Referee of that event and to the President of the Association.
- 222.4 The Board may exclude from participation in medal tests, New Zealand National Championships, International Competitions and exhibitions for a definite period or forever, any person (whether skater, official or other member of an Association or Club affiliated to the Association) who can be proved to have acted against the Regulations, or otherwise improperly. Before exclusion the person concerned must be informed about the nature of the alleged offence, all facts related to the case, and all evidence available, in order to enable them to defend themselves. If the person concerned does not avail themselves of this opportunity within two months, their right to do so is forfeited. The relevant information must be forwarded to the member Association or Club to which the person belongs.

223 CONDUCT OF OFFICIALS

- 223.1 Officials acting on behalf of the Association at championships and medal tests shall conduct themselves in a dignified manner at all times.

Vocal music is permitted.

The Interpretive programme will be judged only on the basis of the three Component Marks. The programme should consist of a variety of skating moves selected for their value to enhance the skater's interpretation of the music rather than for their technical difficulty. Skaters will be judged on their ability to interpret the music and develop a theme by using their skating skills.

The Interpretive programme must include:

- i. A minimum of one and a maximum of two jump elements
- ii. A minimum of one and a maximum of two spins

For the purposes of this rule, a clear attempt of a jump/spin element will count as a jump/spin element. Where a spin fails for some reason and the skater immediately does another spin those spins will only count as one spin for the purposes of this rule.

Jump combinations of up to three jumps are permitted. In Bronze and Silver only single jumps, excluding Axel, are permitted. Gold and Elite have no limits on the number of jump revolutions. However, credit for jumps and spins is based solely on the ability of such movements to enhance the chosen theme and support the music, no credit will be given for their technical difficulty.

Falls are not subject to a deduction but may have a negative impact on the Program Components.

Elements exceeding the maximum number will be judged as an illegal element and receive a 0.5 deduction. Elements lacking in number will receive a 0.5 deduction. Violations of the below requirements will also receive a 0.5 deduction:

- The programme must be developed through skating skill and quality rather than through non-skating actions such as sliding on one knee or excessive use of toe steps which should be used only to reflect the character of the programme and to underline the rhythm and nuances of the chosen music.
- The skater must not remain in one place for more than five (5) seconds.
- Costumes should be simple, tasteful and selected to enhance the performance by appropriately reflecting the character of the music and theme.
- Props may not be used in any part of the programme. Any item that is held in the hand or removed during the performance is considered a prop. A hat worn throughout the programme is not considered a prop unless intentionally removed.
- Objects on the ice, thrown to the audience, placed on the boards or on the Judges' tables are not permitted.
- Costumes that contain particles that may mar or leave anything on the ice surface (feathers, boas, excessive beading) are considered unsafe and are not permitted.

Illegal elements

- Somersault type jumps
- Lying on the ice and prolonged and/or stationary kneeling on both knees on the ice.
